World media spreads COVID-19 fear propaganda

In January 2020, disturbing videos emerged from China showing people collapsing in the streets and others responding in full biohazard suits.¹ At this point it's clear that these were highly exaggerated fear propaganda. In the US, the propaganda emphasized hospital overflows with headlines like "Hospitals overflowing with bodies in US epicenter of virus",² but New York Governor Andrew Cuomo later admitted on CNN that "Hospitals were never overwhelmed."³ Most temporary overflow hospitals around the country were never used.⁴

COVID-19 death counts are "lies, damned lies, and statistics"

The Illinois public health director explained that "even if you died of a clear alternate cause, but you had COVID at the same time, it's still listed as a COVID death."⁵ Additionally, the PCR tests used to detect COVID-19 have high levels of false positives.⁶ You could make the common cold look like a major pandemic during cold season by counting this way because there are around 2.8 million total deaths per year in the US,⁷ so many people would coincidentally die while having a cold, and thus get counted as cold deaths.

Established CDC pandemic plans abandoned

The CDC's 2017 pandemic influenza plans⁸ mention *recommendations* for temporary school closures and cancelling mass gatherings in extreme circumstances, but there is no mention of lockdowns or anything else that violates constitutional rights. And it only recommended mask wearing for ill persons in high severity pandemics.

Experts denounce lockdowns in Great Barrington Declaration

Three esteemed professors of medicine, epidemiology, and public health from Harvard, Oxford, and Stanford wrote the Great Barrington Declaration in October 2020 which denounced the lockdowns and recommended a better approach.⁹ Dozens of other experts co-signed and nearly 900,000 individuals signed online. A FOIA request found that NIH director Francis Collins emailed Anthony Fauci about the declaration saying, "This proposal from three fringe epidemiologists who met with the Secretary seems to be getting a lot of attention - and even a co-signature from Nobel Prize winner Mike Leavitt at Stanford. There needs to be a quick and devastating published take down of its premises."¹⁰

Sweden maintains lower COVID-19 fatality rate than US despite no lockdown

Sweden was attacked by the media for choosing to stick with established pandemic response protocols instead of following the herd into lockdowns.¹¹ But two years into the pandemic, as of December 2021, Sweden's COVID-19 fatality count amounts to 0.15%¹² of its population versus 0.24%¹³ for the United States. And Japan is at 0.015%¹⁴ with no lockdown. Lockdowns

were a complete failure and there was never any science behind them, yet rulers never apologized for their crimes against humanity and continue imposing restrictions.

Promising COVID-19 treatments suppressed

Many scientific studies¹⁵ found that Vitamin D,¹⁶ Hydroxychloroquine,¹⁷ Ivermectin,¹⁸ and other treatments improved COVID-19 outcomes significantly, but discussion¹⁹ of these by leading scientists was censored²⁰ and doctors were forbidden from prescribing them under threat of losing their medical licenses.²¹

COVID-19 vaccines are neither safe nor effective

There have been more than twice as many reported deaths following COVID-19 vaccination than for all other vaccines combined since 1990.²² The official figure for the US is over 9,000²³ and experts believe that “fewer than 1% of vaccine adverse events are reported” so it could be much higher.²⁴ The CDC has acknowledged heart-related issues from the mRNA vaccines.²⁵ In a censored²⁶ interview,²⁷ mRNA vaccine pioneer Robert Malone expressed serious concerns about the vaccines. Also, an investigation commissioned by a highly reputable medical journal raised issues with Pfizer’s vaccine trial.²⁸ Facebook’s censorship of the publication was sternly rebuked by the journal.²⁹ Soon after being bombarded with the CDC’s mantras of “safe and effective”³⁰ and the “pandemic of the unvaccinated”,³¹ we discovered that the vaccines do not prevent infection or transmission.³² This makes the idea of vaccine mandates and passports all the more absurd.

FDA grants fake approval of COVID-19 vaccine

In August 2021, the FDA granted approval to a vaccine called Comirnaty which is the same formula as the emergency use authorized Pfizer vaccine, but the two are legally distinct. FDA approval is supposed to come with liability for the manufacturer, but even after the approval they are still administering the unapproved version to dodge liability while opening the door to mandates and tricking people into believing they are getting an approved product.³³ The FDA also wants to keep its vaccine data hidden for 55 years.³⁴

Fauci lies to congress; denies funding coronavirus engineering at Wuhan lab

A FOIA release³⁵ confirmed that American tax dollars were sent to an organization called EcoHealth Alliance that funneled the money to the Wuhan lab that was doing research³⁶ on engineering bat coronaviruses to infect humans. Fauci denied this under oath to congress. Professor Richard Ebright declared³⁷ that Fauci was untruthful and the NIH contradicted³⁸ Fauci, but most news outlets covered it up.³⁹ Senator Rand Paul is calling for Fauci to face 5 years in prison for the crime of lying to congress.⁴⁰

We must defeat vaccine passports or lose our country forever
Vaccine passports would enable the ultimate dystopia. Any citizen that speaks against the regime could have their status changed to unvaccinated to ruin their life. Or after people get used to routine boosters, they could slip one in that sterilizes the majority of the population. Even if you trust the current regime, realize that this apparatus will grow and be handed down to future regimes that could be much worse. History has shown us that we need to take this matter very seriously. We need to fight much harder.

- Do not comply with vaccine mandates
- Never use a vaccine passport
